

## COST OF PRODUCTION HOTLY DEBATED FINANCIAL JAWSMITHS DIS- CUSS THIS POINT

**Harvey-Horr Controversy Resumed  
With Fresh Vigor on Both Sides—  
Statistics Figure Largely in the  
Discussion as to the Cost of Money  
Metals.**

Chicago, July 26.—In opening the silver debate yesterday, Mr. Horr attacked a statement made by Mr. Harvey that it cost as much more to produce an ounce of silver as an ounce of gold. Harvey had stated that it cost as high as \$2 per ounce to produce silver, while Mr. Horr declared that if such an assertion were true all silver miners would go out of business. On the contrary, he said, silver has been and is mined in many instances for less than 15 cents an ounce. "Gold costs dollar for dollar, less than silver, and the cost of producing a pound of gold is less than the cost of producing a pound of silver," said Mr. Harvey. "Gold and silver were created together; they were wedded by God Almighty in the earth."

"There are only three of four silver mines left in the United States that are paying," continued Mr. Harvey, "and may give out at any time. Precious metal mining is like gambling. Why do men follow it? Tell me why they gamble on the board of trade."

Mr. Horr now took the floor. "I say to the people of this country," said he, "that the statement of Mr. Harvey, and I do not care who said it before him, that it costs as much to get a pound of silver as a pound of gold is not true. Centuries ago the metals cost the same. Gold has been cheapening since 1873, when measured in human toil, or products of toil, but silver has depreciated much faster than gold."

"The main effort of the silverites is to make the farmers think that this silver legislation was against them. But how have the farmers been affected by the legislation since 1873? There are two classes of farmers, the agriculturists and the workers in cities, those who receive fixed wages. Take the first, and the effect of these legislative changes on them may be seen in the average prices paid for agricultural products. Harvey stated that the silver legislation did not affect prices much until 1879, so we will compare prices before and after that date." From the United States statistical abstract Mr. Horr read figures on the annual average production of the country's largest crop—corn—showing that the price per bushel from 1875 to 1879 was 36.8 cents, while from 1884 to 1890 it was 42.1 cents per bushel, a general advance. Mr. Harvey protested that he should compare the crop of 1873 with that of 1892, but Mr. Horr tartly inquired if he should yield wholly to the former's wishes.

Mr. Harvey accused Mr. Horr of juggling with figures and making a flank attack, but declared he would meet him on his own ground. "We produced seven bushels less of corn per capita in 1894 than in 1873," he said. "While the price ought to be 80 or 90 cents under bimetalism, it is now about 45 cents."

Mr. Horr introduced figures to show that oats as well as corn were higher than before 1873. "These figures do not please Harvey, so let's take wheat, which will please him," said Mr. Horr. "Here is an actual decline. But strike a balance of the nine great cereals, and we find a material advance in value over the years 1875 to 1879. In the western states in the last twenty years there has been an advance; in the east and south there has been a decline. This is due to improved transportation, not to a change in primary money—or any other money."

Mr. Harvey retorted by saying that in 1872 one bushel of wheat worth \$1.25 paid \$1.25 of debt; now one bushel was worth 65 cents. In Mexico and India a bushel of wheat paid the same debt that it did in 1872. He said: "There is not money enough in the country. The average man should have at least \$10. If he hasn't that amount in his pocket, he ought to have."

Returning to farm products Mr. Horr criticized Harvey's statement that if the United States had free coinage the American farmer would get \$1.30 a bushel for his wheat as the Mexican does, instead of 67 cents. "A crop is now produced with less toil. Then take what a man can buy with his money, articles cut in two by the law of cheaper production." Mr. Horr then read a list of prices of staple articles at present compared with 1873 prices, showing the marked decrease. "Silver has cheapened in precisely the same way," said he, "and so has copper, lead or aluminum."

Warning to his subject Harvey replied: "Mr. Horr insists on his human toll unit, but his system leaves the unit without the power to purchase anything. Many kinds of property are cheaper, but he did not mention the most desirable and valuable in all the world—money. Let us away with sophistry. Price is a relative term. Your property doesn't buy half as much money as it did, but that other property, money, buys twice as much of your property. When you enhance the value of this property by legislation you are legislating for a class. The man who loaned money that 1,000 bushels of wheat would have repaid in 1872 will now be paid by 2,000 bushels."

Mr. Horr responded that the farmers' condition can not be judged from one article and that the cheapest. "According to Mulhall," said he, "the farmers' ability to save is three times as much during the last two decades as during Harvey's golden era of silver before 1873. In years when Harvey says we were going to ruin we saved two and one-half times as much as in his 'years of prosperity.' That rule he tells of exists only in diseased imaginations or with boys like 'Coin.'"

Mr. Harvey reaffirmed his position and said that from 1873 the United States had been not only a "workshop," but a sweatshop. He then launched into an earnest warning against the slavery threatened by the increasing deference to wealth.

## RESCUED FROM A MOB.

Quick Work of Police Officers Alone Prevents a Lynching.

Indianapolis, Ind., July 26.—Following close upon the horrible assault upon and murder of 3-year-old Ida Gebhard, in West Indianapolis, came yesterday the discovery that Ida Hutchinson, an 11-year-old girl, residing in the same suburb, was the victim of an attempted assault. The attempted assault was made last Monday, but was not known till yesterday. The man accused is Charles Davidson, a collector for the Metropolitan Life Insurance Company, an industrial company. He was arrested about 7 o'clock in the evening at his home in this city and taken immediately to the suburb, where the feeling was still at fever heat over the brutal murder of little Ida Gebhard. The prisoner had hardly been locked in the city prison before a mob began gathering in front of it. It was supposed by the mob that Davidson had accomplished the assault of Ida Hutchinson, and it was disposed to make a horrible example of him, to prevent further assaults of the kind. The women moved about through the mob and a number of them were urging their husbands and brothers to storm the prison and lynch the culprit. The officers who had charge of the prisoner immediately began making preparations for the removal of their prisoner. The fire hose was drawn out as if intending to sprinkle the street in front of the engine house. As soon as a stream was had it was turned on the mob. The mob was taken by surprise and hastily fell back from in front of the building.

In the meantime Davidson had been placed in a buggy between two officers and preparations made for a dash for the jail in this city. When the crowd fell back in front of the hose the two officers, with their prisoner between them, drove out of the engine house. As soon as they were upon the street they whipped the horse into a gallop and started for the county jail. The mob saw the intention and with yells started on a cross-cut to head off the buggy. It was a race for life. The finish was a close one, but the officers beat the mob to the bridge and landed their prisoner safely in jail.

## Miners in Pennsylvania to Strike.

Pittsburg, Pa., July 26.—At a meeting of the miners' officials held here yesterday it was decided that a strike was inevitable in view of the fact that four states have expressed themselves on the price question. The miners have been notified not to return to work until after the general convention Aug. 1. The program as now arranged is to inaugurate the fight at the Banksville mines, where the men have been asked to work for 55 cents a ton. It is said a rate of 64 cents a ton will be demanded and if the operators in this district refuse to grant a uniform rate the entire force of the National office is to be thrown into the Pittsburg district to push the fight.

## Illinois Republican Committee Called.

Springfield, Ill., July 26.—John R. Tanner, chairman of the Republican state central committee, has decided to call a meeting of that committee in Springfield, July 30. The call reads as follows: The members of the Republican state central committee are hereby called to meet at the Leland hotel, Springfield, Ill., at 10 o'clock a. m., July 30, 1895, to consider the conditions which obtain by reason of the death of Hon. Fred Remann, congressman from the Eleventh District. The committee will also take appropriate action on other matters of moment which will be brought to its attention."

## Against Free Silver.

St. Louis, Mo., July 26.—The St. Louis democratic sound currency club has issued the following address to the democratic voters of Missouri: "It is manifest that the gathering at Pertle Springs Aug. 6 next is not intended to be and will not be a democratic convention, but a free silver convention. Its platform is already written and it is for free silver at 16 to 1. It repudiates and renounces allegiance to the democratic national platform of 1892, and to the democratic national administration elected upon that platform. 'Sound money' democrats will have no occasion to attend it or heed its utterances."

## Firing on Lane Not Reported.

Washington, July 26.—The reported firing on the Carrie A. Lane, an American schooner, by a Spanish cruiser off the Cuban coast has not yet been reported officially to the state department, and in the absence of any definite statement of the act the officials decline to express an opinion on the subject. The small size and appearance of the schooner, it is said, were against it, and calculated to excite suspicion as to its object.

## QUINLAN WEAKENS IN THE SWEAT BOX

**HOLMES' JANITOR CLOSELY  
QUESTIONED TODAY**

**Police Have Had Him at Headquarters  
All Morning and Are Said to Have  
Compelled Many Important Admis-  
sions—Canada Wants the Mur-  
derer.**

Chicago, July 26.—Pat Quinlan, the janitor of the Holmes building, has been in the police sweat box all day, and is said to have made important disclosures. This was expected after his admission yesterday that he had been Holmes' confidential man as well as janitor. Mrs. Quinlan was put through a rigid examination with reference to her 11-year-old daughter Cora, upon whose life Quinlan admitted there had once been \$1,000 insurance, and as to her knowledge of her husband's connection with Holmes. George W. Harris, said to be a former associate of Holmes, was in custody last night. More bones, forming a portion of human anatomy, were unearthed in the basement of H. H. Holmes' Englewood building. "Ned" Conner told Chief Badenoch what he knew of Holmes and the disappearance of his divorced wife and daughter. A decision was reached that Mrs. Myrtle Holmes, of Wilmette, must be asked to tell the police what she knows of Holmes. A man named Phillips, the aider and abettor of Holmes in dark deeds, was discovered. This was the result attained yesterday in the Holmes investigation.

Of the disappearances talked of lately it was given out that one concerned Miss Emeline Cigrande, of Lafayette, Ind. The other was that of a young woman 17 years old, whose parents live in Chicago, but whose name Chief Badenoch declined for the present to make public, for the reason, it is intimated, that the unfolding of the numerous clues connected with her disappearance will result in the amassing of evidence upon which Holmes may be tried and found guilty of murder.

In the dirt which was thrown up in the digging in the cellar Wednesday were found yesterday two more bones, one a socket bone and the other a piece of a shoulder blade. The shoulder blade is believed to come from an adult. The other is apparently that of a child. The workmen yesterday dug to find the boiler which Holmes had connected with the gas tank. It is believed its discovery will add evidence to the case. The work of tearing down and remodeling part of the Holmes building will begin next Monday.

## CANADA WOULD HANG HIM.

Toronto Authorities Think They Can Make a Clear Case Against Holmes.

Toronto, Ont., July 26.—Crown Attorney Dewar yesterday consulted J. R. Cartwright, deputy attorney-general, and laid before him a request for the extradition of H. H. Holmes. The application will be made as quickly as the necessary formalities can be complied with, and will be pressed upon the United States authorities as earnestly as possible. The warrant will be sent at once to Philadelphia and the authorities there will be asked to surrender Holmes on the charge of double murder in Toronto. Toronto, it is contended, has the strongest case against Holmes; but it is believed his friends will endeavor to have him removed to Chicago for trial. Deputy Attorney-General Cartwright said what course the government would take would probably depend upon the action of the authorities on the other side. "There is no use," he added, "of seeking his extradition if he can be convicted of a capital offense in the United States."

## Hunting Howard Pitzel's Body.

Indianapolis, Ind., July 26.—Detective Geyer continued his search for the body of little Howard Pitzel yesterday without success. He said that he believed that he was making progress. He has found real estate agents who recall that Holmes, alias Howard, called on them and talked about buying or renting property. He believes that within the next forty-eight hours he will discover the house which the murderer occupied, and subsequently the body of the murdered boy. The detective says he will remain here several weeks if necessary, for he is convinced that the body is here.

## Will Be Tried in Philadelphia.

Philadelphia, Pa., July 26.—District Attorney Graham has decisively announced that H. H. Holmes would be tried in this city for the murder of Benjamin F. Pitzel in the Callowhill street house. In view of the fact that the district attorney has said that Holmes would be tried wherever the strongest case could be made out against him, it is believed that the authorities here have recently learned more important details of the crime which insures his conviction. Information as to whether or not this supposition was correct was refused.

## Fire at Yellow Springs, Ohio.

Yellow Springs, Ohio, July 26.—Fire yesterday destroyed \$20,000 worth of property, commencing where the conflagration of two months ago left off. About one-third of the town was burned there, and another third went yesterday. The fire broke out in a drug store and burned one hotel, three or four stores, a dozen residences and half a dozen barns. Xenia and Springfield both sent aid. Some of the superstitious say they will move away.

## Fatal Railroad Accident.

Berlin, July 26.—A mixed local train while re-entering the station at Raudeten dashed through the building and the engineer and several passengers were killed. The accident was due to a defective brake.

## Wages Increased 10 Per Cent.

Utica, N. Y., July 26.—The New York Mills Cotton company has notified its employees in mills Nos. 2 and 4 that they will grant an increase of wages amounting to 10 per cent.

## THE INDIAN SCARE GROWS IN EXTENT

**LATEST NEWS FROM THE SEAT  
OF WAR.**

**Unconfirmed Report of a Massacre of  
Whites in the Jackson Hole District  
Indians Are Undoubtedly Not On  
Their Reservations Around Mar-  
ket Lake.**

Denver, Colo., July 26.—A special to the News from Pocatello says: "Reports from Market Lake say the Rexburg (Idaho) paper reports fifty-nine white people killed by Bannocks near Jackson Hole, but there is no way to confirm the report, and it is not believed here. There has been no news received at Market Lake for three days of an authentic nature. Forty-four carloads of United States cavalry left Cheyenne last night for Market Lake with provisions, horses, tents, etc. They will reach Pocatello this afternoon. Four hundred Indians are said to have joined the Bannocks on Fall river and are preparing to make an onslaught on the whites. It is probable that Governor McConnell will be called to aid in suppressing violence."

## NOT ON THEIR RESERVATION.

Proof That the Indians Have Left Their Homes for the Warpath.

Cheyenne, Wyo., July 26.—If any further proofs were needed that the Bannocks and Shoshones of this reservation are not on the reservation but up in the besieged country it was proved here yesterday. There was a big circus in town that had been advertised for a month. The Indians are passionately fond of such a show, and it is well known that they would miss a week's rations or travel fifty miles to see the performance, and although it is seldom that a circus here is not attended by at least 500 Indians, not twenty-five bucks could have been counted in town yesterday. The fear is now expressed that when the Indians learn that the troops are surely coming they may endeavor to make a sudden strike and then make all haste for their reservations, so that by the time the regulars get here they will be peaceably lounging in their accustomed haunts. Rumors have been received that trouble may be looked for to-day or to-morrow, but as that country is distant a twenty-four hours' ride for the swiftest Indian messenger no facts have yet been secured.

The news from the north grows more warlike and threatening with every message received. The latest information that is reliable is to the effect that within twenty-four hours 400 Lemhi Indians from the west have crossed the Union Pacific railroad in the vicinity of Market Lake en route for Jackson's hole. The Lemhi reservation is on the northwestern border of Idaho just where the 45th meridian, which is the northern line of Wyoming, crosses the mixture of Shoshone and Bannock Indians.

News has also just been received from the village of Market Lake that communication with Jackson Hole is now entirely shut off. The latest messengers sent out have returned and say that all the mountain passes are heavily guarded by the Indians, who will allow no whites to enter.

Adjt.-Gen. Stitzler of Wyoming, who was at Market Lake yesterday, was hourly expecting to hear that a conflict had occurred between the settlers and the Indians in the Jackson's Hole valley. Two of his messengers dispatched to that district several days ago have not yet returned, although overdue, and grave fears are now entertained that they have been ambushed by the Indians.

## Indians Concentrating.

Cheyenne, Wyo., July 26.—Dispatches indicate rapid concentration of bands of Utes, Lemhis and Bannocks in the vicinity of Jackson's Hole. General Stitzer, of the state militia, wires from Market Lake, Idaho: "Operator at Beaver Canon wires here that about 200 Lemhi bucks passed that point headed toward Yellowstone Park."

Major John Randall of the Eighth United States Infantry at Fort Russell has been ordered to accompany Gen. Copping, with whom he messed in the civil war and campaigned in Arizona. The expedition goes from here to Ogden via the Union Pacific, thence over the Utah Northern to Market Lake, Idaho. From that point it is about one hundred miles to Marysval, where the Jackson Hole settlers are supposed to be concentrated. The troops can not reach this point until Tuesday or Wednesday next, and an engagement between the rapidly accumulating forces of Indians and the little band of settlers at Marysval is confidently expected to take place before that time.

## Have Plenty of Ammunition.

Pocatello, Idaho, July 26.—It is said there are seventy-five heads of families in the Jackson Hole valley. For two weeks they have been preparing for the condition that now exists. In order to forestall the Indians messengers were sent to buy up all the ammunition that could be obtained in that section of the country, and so well have they succeeded in laying in a good stock before the passes were watched by the red men that they now have on hand about 100 rifles and every settler is equipped with 1,000 rounds of ammunition. The reason that there has not been a more determined retaliation before this on the part of the Indians is because they can not prepare for war so quickly.

## No Silver Convention in Oregon.

Portland, Ore., July 26.—The democratic state central committee will not call a convention to take action on the silver question. The secretary has received replies to his circular from the chairmen of seventeen county committees who are opposed to such action. This is a majority of the county committees.

## TWENTY-FIVE MINERS KILLED

Boehm, Westphalia, July 26.—An explosion of fire damp last night, killed twenty-five miners, and injured all.

## JOSEPH BEAM IS HANGED.

Washington, June 26.—Joseph C. Beam was hanged this morning for killing his step daughter.

## DEERING WORKS IN FLAMES.

Chicago, July 26.—Deering's harvesting works are in flames. A general alarm has been turned in.

## TO LEGALIZE RACING.

Track Representatives Get a Bill Into the Illinois House.

Springfield, Ill., July 26.—Just before the house adjourned yesterday Mr. Kilcourse of Cook created a sensation by introducing a race track and pool selling bill under the head of revenue. The bill created a heated discussion. It provides that race-track officials shall pay into the treasury of the county in which it is located 3 per cent of the gross receipts. It prohibits selling pools on outside races, and that races shall be held only between May and November, and not to exceed sixty days on each track. Representative Merritt called up his resolution relative to fees of public officers. Consideration was postponed for one week. The house, in committee of the whole, with Mr. Graham in the chair, resumed the consideration of the revenue bill.

Mr. McCarthy introduced a bill taxing ball games. Its provisions are as follows: "There shall be paid into the state treasury a tax of 2 per cent upon the gross receipts of all games of baseball to which an admission fee is charged. No games to which an admission fee is charged shall be played in an inclosure on Sunday."

In the senate Mr. Craig offered a resolution to have the bills recalled from the committee and that the senate continue in session until all subjects mentioned in the governor's call had been disposed of. He moved a suspension of the rules to take up the resolution, but the motion was lost. The judiciary committee's arbitration bill was read a second time and advanced to the third reading with amendments. The house arbitration bill introduced by Hogan was read a first time and referred to the committee on judiciary. Senator Fitzpatrick's bill to provide additional revenue of \$500,000 a year for state purposes was taken up on second reading. Senator Herb's bill to tax express companies was advanced to third reading. The senate adjourned until 10 o'clock to-day.

## ITALY DECLINES.

Refuses to Ratify a Treaty of Settlement.

New York, July 26.—A dispatch from Buenos Ayres says: "A correspondent in Rio de Janeiro telegraphs that the Italian government refuses to accept the treaty providing for a settlement of the claims of that country for alleged outrages committed during the revolution. Well-informed persons here in discussing the boundary question between Argentina and Chile say that the points to be arbitrated should be limited. On any point, it is suggested, it is not desirable to permit a European monarch to act, as has been held by some was the proposed course."

## Disappointing Wheat Yield.

Cincinnati, O., July 26.—The Price Current summarizes the crop conditions for the past week as follows: "Thrashing returns are more disappointing than otherwise in both yield and quality of wheat. Moisture has been unfavorably affecting the grain in the shock in Missouri and elsewhere. There have been more complaints from the spring wheat region and indications are moderately less favorable. Corn generally is doing well, but a portion of the area is urgently needing moisture. Oats are maintaining fairly good returns. The week's packing of hogs amounted to 160,000, against 245,000 for the corresponding week last year."

## Scales Clogged with Coal Dust.

Spring Valley, Ill., July 26.—The case of Inspector Franke against the officials of the Spring Valley Coal company was taken on change of venue to Justice McLaughlin yesterday. The company did not deny that a car of coal on the inspector's scales weighed 2,500 pounds but only weighed 1,900 on the company's scales. They said coal dust and dirt got into the workings of the scales. After the arguments Justice McLaughlin dismissed the case upon the grounds that the ordinance conflicted with the state law. The inspector has given notice of an appeal.

## Campes Surrounded by Rebels.

Key West, Fla., July 26.—A private letter received in this city last night by steamer Mascotte from Havana confirms the report of Martinez Campos' defeat at the battle of Valenzuela. Campos is now at Bayamo seriously wounded and surrounded by insurgents. Troops are being sent from all parts of the island to relieve him. Three steamers with troops have left Santiago de Cuba for Manzanillo to re-enforce Campos and get him out. The greatest excitement exists in Santiago.

## France Gets Privileges.

Shanghai, July 26.—The treaty agreed upon between France and China to regulate the commercial relations between the Chinese provinces bordering on the French possessions and the latter, opens She-Mao to commerce, permits French citizens to settle along the rivers and use the rivers Laos and Mekong for the transport of merchandise, provides for a reduction of duties and allows the right to extend railroads and establish telegraph lines.

## Three Little Girls Drowned.

Columbus, Neb., July 26.—Three little girls were drowned near this place last evening in the Platte river. The bodies were recovered. The dead: Daisy Klaus, aged 13 years; May Klaus, aged 11 years; Hulda Klaus, aged 7 years.

## STOMACH TORN OPEN BY AN EMERY WHEEL

**RACINE WORKMAN MEETS IN-  
STANT DEATH.**

Frank Kraupa, While Grinding Castings Is Killed By the Bursting of The Wheel—Great Gash Cut in His Body By The Flying Fragments.

Racine, July 26.—Frank Kraupa, a young man employed in the Mal-leable iron works was working an emery wheel today when it burst. One of the pieces struck him in the stomach and cut a terrible gash. He was instantly killed.

## CAPT. BECK MAKES A MOVE.

Members of a Congressional Delegation Arrested in Nebraska.

Pender, Neb., July 26.—Special couriers from the Omaha Indian agency bring the advice that hardly had the congressional delegation, with an escort of nearly 100 citizens of Pender, after a ride of twenty-five miles across Thurston county, entered the confines of Capt. Beck's reservation when Deputy Marshal Boehme swooped down on William E. Pebbles and John F. Meyers, placing them under arrest as conspirators against the government of the United States. Capt. Beck said he was tired of fooling and proposed to execute the laws as he found them on the statute books and wanted it distinctly understood that he was responsible for the agency and the wards of the government. When the excitement over the arrests had somewhat abated, the council was erected under the shade of a number of trees fronting the school house of the Omaha agency. Senator Thurston, Congressman McKelvie, John Strode and Andrews addressed the red men. A number of Indians spoke on both sides of the allotment proposition. The delegation adjourned late in the evening to go to the Winnebago agency.

## NOT PRACTICAL REFORMERS.

Bertram Currie Says the Bimetallists Are Ill-Advised Agitators.

London, July 26.—The Times publishes a column letter from Bertram Currie, president of the Gold Standard Defense association, in reply to the statements made by Henry C. Gibbs, a director of the Bank of England, and president of the British Bimetallic League, in the Times of July 13, controverting the arguments made in the manifesto of the Gold Defense association. Summing up the situation from his standpoint, Mr. Currie says: "The bimetalists are enthusiastic, ill-advised agitators, instead of practical reformers."

## Lake Shore Hold-Up.

Toledo, O., July 26.—Sheriff Shaffer of Fulton county has returned from the scene of the Reece hold-up. There were but three men engaged in the robbery. One guarded the engineer and the other two robbed the express car. From their method of procedure the sheriff is certain it is the same gang that did the Kessler job. The sheriff and his party found the trail of the three and tracked them over five miles to the Lockport bridge, where the trail was lost. The suspects arrested were all released, as there was nothing against them.

## Crowd of Witnesses.

Carrollton, Mo., July 26.—The second trial of William P. Taylor and George E. Taylor for the horrible murder of the Meeks family, near Brownson, on the night of May 10, 1894, began here yesterday. When the court instructed all witnesses to stand up and be sworn over half the audience arose. It developed that there are four hundred witnesses in the case, and they are about equally divided between the two sides. T. N. Bresnahan made the opening address for the state. Colonel John B. Hale opened for the defense.

## Fighting in Macedonia.

Constantinople, July 26.—Besides the three battalions from Albania another battalion from Yanina has been diverted to Salonica. A band of sixty Macedonians recently crossed the Serbian frontier, but were dispersed by the Serbian troops with heavy loss. News received here from Salonica is that there has been prolonged and severe fighting between the troops and several insurgent bands in the direction of the Perim Mountains. Re-enforcements are being hurried to the scene.

## Colorado Democrats Angry.

Denver, July 26.—As a result of the recent democratic state convention an address has been issued by a committee appointed for the purpose of appealing to democrats to get together and reorganize. The address asserts that a vast majority of the advocates of bimetalism are democrats and that the restoration of silver can come only through the agency of the democratic party.

## Nicaragua Question Again.

Berlin, July 26.—A dispatch to the Cologne Gazette from Washington says that the Nicaraguan question is about to be reopened. It is added that Chief Clarence, the deposed ruler of the Mosquito territory, who has been residing at Kingston, Jamaica, as a pensioner of Great Britain ever since he left Nicaragua, is on his way to England, where it is believed in some quarters his claims against Nicaragua will receive support.

## HUNTERS IN CENTER SEE SPORT AHEAD

### CHICKEN SHOOTING LIKELY TO BE GOOD THIS FALL.

**Dry Weather Has Driven the Birds Into the Marsh—Insurance Claims Settled—Tobacco Growers Have Had a Hard Time This Summer—Much Butter Sold.**

CENTER, July 26.—There promises to be some good chicken shooting on the west marsh the coming fall as the coming drouth has driven the birds all there. The insurance companies have settled all the losses by the recent wind storm and in consequence several new buildings are in progress. The small grain harvest is about finished in Center and threshing begins next week. The man with eight or ten acres of tobacco is the kicker this year. In some instances it had to be reset the third time. Janesville is a heavy consumer of Center creamery butter, having used about 2,500 pounds "race week." Fred Vankirk evidently believes in quick sales and small profits, as he is now selling flour, sugar, etc., at a far less price than the merchants of the surrounding towns. Quite a delegation of Center people took in the "Dells" excursion Friday. The lawn social given at Hon. Seth Fisher's beautiful grounds on Wednesday evening, was an immense success. The Center band furnished some excellent music during a literary programme, and although the evening was cool a large amount of Shurtleff's ice cream was disposed of. One of the features of the evening was the arrival of Cole MacLean's carryall from Janesville, containing thirteen young ladies alone—their male escorts being too tired to accompany them, or else shy in the pocket book since the races. The services of Charles Hemmingsway have been secured for the third year as teacher of the West school, showing that he is appreciated and Center will have the best. What has become of that committee that started to repair the church, and beautify the park cemetery. The community at large could well afford to give some labor towards repairs on their grounds, which are the most beautiful for their purpose of any in the county. Miss Lottie Crow is a visitor in Center. Rev. H. Goodacre is attending meetings in Genesee the present week. Fred Vankirk has the best stock of goods ever in Center and meets all competition of the larger places. Rev. Halsey and family of Janesville, were visitors in Center last week. The Snyder Bros. have 100 acres of as fine corn as ever grew in Rock county and know how to handle it. Grant Fisher lost a valuable colt last Sunday from inflammation. Sam Dean is now at home in his new house, but the question is, when will he bring his new housekeeper. Has any one seen Henry Pepper?

### CASE OF DIPHTHERIA IN CENTER

Little Child of William Behling's 11—Pleasant of The Disciple Sunday School.

FOOTVILLE, July 26.—A case of diphtheria is reported at William Behling's, in Center. A nine-pound M. W. A. arrived at the home of William Honeysett on Tuesday last. Mrs. Mary Waring of Magnolia, is visiting her son Forest and family. Joseph Stapleton has the basement laid for his new barn. Wintermute Brothers' circus will show at Orford Friday, August 2. The most prominent feature will be the trained dogs. There will be a parade at noon through the principal streets. The Disciple Sunday school of this place, will hold a picnic in Samuel Honeysett's woods, on Wednesday, July 31. Invitations have been sent to ten other schools to join them. Mrs. Frank Owen is entertaining a lady friend from Evansville. The Masons from this place attended the funeral of Mr. Whitely of Magnolia Tuesday afternoon. Mrs. Lucy Strang is in Janesville receiving medical treatment. Tom Ogden has improved the looks of his residence by giving it a coat of paint. Mrs. Minnie Pepper is just recovering from a serious illness.

### Good Fishing in Porter.

PORTER, July 25.—Bert Montgomery caught seventeen bass and four pickerel, two of the latter weighing seven and four pounds, while fishing in Gibbs lake on Monday. Who can beat it? The school board in the Stevens district have engaged Miss McGuire as teacher for the ensuing year at thirty dollars per month. The tobacco crop is looking good in this vicinity; much better than was expected a few weeks ago. Mrs. Will Pennebag, who has been the guest of Maggie McCarthy, returned to her home in Waukesha.

Monday. James Connell and sisters, of the town of Janesville, were visitors on Sunday. The Misses Nora and Maggie Condon, of Newville, spent Sunday here. Fred Frusher has returned home from Valparaiso. Porter and Fulton nines crossed bats in Fulton on Saturday, score standing 12 to 26 in favor of the Fulton nine. The Porter Cornet band will accompany the excursion to Devil's Lake Saturday, August 3. Only \$1.25 for the round trip from Evansville. Those who have never visited that picturesque place should now avail themselves of the opportunity. Mr. Jewett of Milton Junction, was a caller one day last week. Thomas Madden visited his sister here one day last week, having ridden from Austin, Minn., on his wheel. Mr. Stockman of Milton, was selling the Monarch remedies here, recently.

### Clear Lake.

CLEAR LAKE, July 26.—Most of the boarders at Rose Park left for their home in Chicago on Monday. Prof. Lenti, wife and children are expected soon to spend a few weeks in the fresh air. Frank Willey brother of Mrs. C. Hackbarth, spent Sunday at her place. He is editor of the Tobacco Leaf of Janesville. Biddell Gunn and mother also of Janesville spent Sunday at C. Hackbarth's. Mr. and Mrs. Will Stickman and Glen spent Sunday visiting friends in Fulton. Archie Hadden has bought a fine new piano of Mr. Bliss of Milton. Frank Hadden spent part of last week in Evansville riding over on his wheel. Dee Hiffard has been spending a few days visiting his sister-in-law, Mrs. George Batten.

### News From Fairfield.

FAIRFIELD, July 26.—Dr. William G. Clarke was a caller at A. D. Clark's last week Wednesday. Rev. White has returned from a pleasant trip in the east and occupied the M. E. pulpit Sunday afternoon. A daughter arrived at the home of Mr. and Mrs. Theoren Cutter on Sunday, July 14. The hum and whistle of the steam thrasher is once more heard in our midst. Grain yields are very light. Mrs. H. A. Johnson of Darien visited Fairfield friends last Wednesday. Miss Stetson of Lima was the guest of Miss Ada More last week. Mrs. Carroll once Etta Olmstead of Waukesha is visiting friends at this place.

### COULDN'T ATTACH TAYLOR'S GOODS

Judge Bennett Decides a Suit at Law Between Green County Parties.

F. Taylor is a resident of the state of Wisconsin. That is a simple enough statement, but, nevertheless, it required a ruling of the circuit court to make it binding. The case was that of F. W. Babcock against F. Taylor and was heard before Judge Bennett in the court chambers yesterday afternoon. The parties to the action reside in Green county. Mr. Taylor was the proprietor of a store that was largely stocked with furniture that was in use during the World's Fair. He was indebted to Mr. Babcock. The latter attached the property for the debt, alleging that Mr. Taylor was a non-resident and the service would therefore be void. Mr. Taylor held that he was a resident of the state, therefore Mr. Babcock could not attach his property without showing that the defendant was attempting to defraud his creditors. Judge Bennett decided the case in favor of the defendant.

### ESCORTS FOR STEAM THRESHERS.

Man With a Red Lantern Must Walk Twenty Rods Ahead.

When a steam thrasher goes out for an evening stroll this summer—and everybody knows that evening strolls are their delight—precautions must be taken. The legislature took up the subject last winter and passed chapter 196. This requires all persons hauling or propelling a steam engine at night (between one hour after sunset and one hour before sunrise) to have some one go in advance, at least twenty rods and not more than thirty rods, carrying a red lantern, and whenever such person shall meet any team or animal he shall signal the engine to stop and assist the team to pass it. The fine for each offense is not less than \$6 or more than \$15.

### THE GIRL WORE MEN'S CLOTHES

Three Second Ward Young Ladies Astonish a Restaurant Man.

Three Second ward young ladies entered a North Main street restaurant last evening and ordered ice cream. The proprietor supposed the party to be composed of two girls and a boy, but when they came to settle the supposed boy gave himself away by her laugh, and it was then seen that it was nothing less than a girl dressed up in boys clothes, with a black band about her head to hide her hair.

"We are out for a good time," was their explanation.

### CLOTHING FOR THE CITY'S POOR

City Missionary Mary Kimball Kept Busy Distributing Garments.

Miss Mary Kimball, the city missionary relieved forty-nine applicants for old clothes Tuesday morning. Very little food is given out now, and the clothing is mostly taken by families where the husbands have been out of work for some time.

### Monona Lake Assembly.

The Chicago, Milwaukee & St. Paul Railway will sell excursion tickets to Madison and return, on account of the Monona Lake Assembly, at a fare and a third, from July 22 to August 2, good for return until August 3. All trains stop at Assembly grounds.

## GIRL GREW DIZZY OUT ON THE RIVER

### CROSSING THE C. & N. W. BRIDGE WITH A BIKE.

Spring Brook Men to the Rescue—Dry Extract Works Shut Down This Week—Two Weeks More of the Jackson Street Blockade—Threshers Start Out.

Only a third of the Jackson street bridge has been finished. The piles are being set two feet deeper in the earth. They were not deep enough before and some of them sank so far as to leave the bridge without support.

Teams are turned back every day from the bridge entrances and Spring Brook residents go up town by round about routes. A young lady cyclist tried to take a short cut and was rescued in the middle of the Spring Brook railroad bridge by men from McKee boulevard. She tried to walk across the bridge with her wheel but when she reached the center became dizzy. She sat down on the ties and called for help which was not long in coming.

It will be two weeks before the wagon bridge will be open but when finished it will be better than ever. Contractors Stewart & Cullen are doing their best and George Butler, the overseer for the city neglects nothing. Mr. Butler is a man who understands his business thoroughly, having been connected with bridge work for years.

Small boys play in the main stream of the river around the bridge, there being only seven feet of water in the deepest channel.

### Dry Extract Works Shut Down.

Spring Brook addition is made lively by the starting of the Hall factory, but the Dry Extract Company has been running a little slow and this week the factory is shut down. The management say they are receiving numerous testimonials daily from all parts of the country in praise of their goods, however, and that a big trade is assured.

Irrigation seems to be a success. H. C. Lindington was the first to try it, and besides adding a number of ditches he has purchased a larger wheel for his wind-mill and expects to go into the scheme on a large scale next summer.

R. N. Spicer has started out with his threshing machine. T. Carruthers, F. Samuels and C. Lawrence are his crew.

A good share of the old plank from the bridge is being used for sidewalks, while odds and ends from the bridge are being used for wood piles for the winter.

### Sulpe Plenty Around the Creeks.

Sulpe are numerous about the banks of the creeks, and strong temptations are offered to hunters.

T. Spohn attended a dancing party at Johnston last evening.

If it wasn't for the electric light at the corner of Eastern avenue and McKee boulevard, all of Spring Brook would be in darkness. Residents are still wondering if they will be benefited by the extensions of the electric.

Boys from other parts of town have made the night hideous along Eastern avenue with their yells, and complaints are frequent.

The party recently given at the Eastern avenue home of Mr. and Mrs. R. N. Spicer was a success in every way. Fourteen couples were present, refreshments were served and dancing was indulged in until an early hour.

### MEMORIAL HOSPITAL ORGANIZED

Officers of the Palmer Institution Were Chosen Last Night.

The physicians interested in the Palmer Memorial Hospital met at the office of Dr. W. H. Palmer last evening and elected officers and directors as follows:

President—Dr. E. E. Loomis. Vice President—Dr. J. F. Pember. Secretary—Dr. W. B. Metcalf. Treasurer—Dr. Hugh Menzies. Directors—Dr. W. H. Palmer, three years; Dr. W. H. Judd, two years; Dr. James Mills, one year.

Mrs. Mary C. Henderson will be the matron of institution which is now open and ready for business. That the new hospital will be an unqualified success is the consensus of opinion, and all Janesville people will hope that the opinion is well founded.

### MEETINGS SET FOR TONIGHT.

## TRIBUTE TO DENNIS RYAN.

Memorial Resolutions Adopted by Division No. 3, A. O. H.

The following resolutions upon the death of Dennis Ryan were passed by Division No. 3, A. O. H. of Rock county:

WHEREAS, God in His infinite wisdom has taken from us to abide with Him forever, our esteemed and worthy member and brother, Dennis Ryan, who died May 14, 1895; and

WHEREAS, While we bow in humble submission to God's decree, we deplore the loss of our member whose sturdy honesty had endeared him to his fellow members. We regret the loss to our country of a good, upright and noble and fearless citizen and a straightforward, just man; therefore

Resolved, That while we recognize that no words of ours can in an adequate way express our sympathy for his orphan children, we pray that God may be with them in their great sorrow and bring back into their lives the light that shone in them before the loss of their kind and indulgent father.

Resolved, That these resolutions be spread upon our records and printed in the Janesville Gazette, Janesville Recorder and Milwaukee Catholic Citizen and a copy of them be sent to the family.

### SMALL TALK OF SOCIAL SORT.

MESDAMES H. G. Carter, F. L. Smith, E. F. Carpenter, H. A. Doty, James J. Hall, C. C. MacLean, Frank W. Wheeler, C. S. Jackson, W. G. Wheeler, J. A. Sutherland, J. P. Baker, W. H. Judd, Wilson Lane, Joseph McCabe and W. H. Greenman joined in a card party at Crystal Springs Park yesterday, the affair being in honor of Mrs. Joseph McCabe. Mrs. C. C. MacLean won the honors, and the occasion was a very pleasant one.

THE residence of O. Paulson, 56 Pearl street, was the scene of an enjoyable social event last evening, it being a lawn party given by the members of the Norwegian Lutheran church. Headlights and Chinese lanterns were used profusely in decoration and all who attended had a good time.

THE Modern Woodmen and Royal Neighbors joined in a picnic at Mayflower Park yesterday and the event was largely attended. Tuckwood's orchestra furnished excellent music for the dancing with which the days outing closed and all who attended had a jolly time.

Mrs. ALEX. BUCHHOLZ entertained a number of friends in a charming manner at her home in Crystal Springs park yesterday, and the ten couples who attended said the occasion was a most enjoyable one.

THE Van Dyke & Eaton Company played to another large audience at the Myers Grand last evening, the bill being "Irish Love." Tonight they will play "Face to Face."

### BRIEF LOCAL NEWS NOTES.

## LOCAL FLYERS TO GO FOR GOOD MONEY

JANESVILLE HORSES ENTERED AT STOUGHTON AUG. 1 & 2

H. D. McKinney, Soverhill & Porter, Al Schaller and Others Name Starters—"Cookies" Klamath Wins a Good Race—Kate Phallamont Unplaced at Detroit.

Several Janesville horses will take part in the Stoughton races on August 1 and 2. Soverhill & Porter enter their promising pacer, Hiram Wilkes, in the 2:30 pacing class and as James Scott drove the animal a mile in the race here last week, landing her fourth in 2:29, he will probably stand a good show to get some of the \$300 purse. W. E. Slawson enters Lady S. in the same class. Al Schaller has named his mare Helen J., in the 2:40 class, and she is said to possess a world of speed. James Cutter, of Fairfield, enters Fairfield Boy in the same class, for which the purse is \$300. H. D. McKinney has entered Coupon in the 2:27 class for which \$400 is hung up while in the 2:20 pacing class he names Alice Director. Alice made a good showing last week, winning third money, and finishing in third place in 2:08 and 2:11. The purse in this race is also \$400. A Janesville delegation will probably go up to see the fun.

### Klamath's Fast Mile.

Klamath, the homely trotter who broke the Janesville track record in the 2:12 trotting class race last week, defeated William Penn, Nightengale, Leas Wilkes, Knightmare and Aunt Deliah at Detroit yesterday, trotting a mile in 2:08. As in the Janesville race, Raymond saved Klamath until the last quarter and then "bushed out" his competitor. Klamath is a gold mine in Raymond's hands, although he was so ugly when he was in the Salisbury stable, that he had to be sent home. Raymond makes Klamath go by talking to him and his favorite expression, said in a pleading tone is, "Now cookies, you know me, cookies." "Eat 'em up! Cookies, cookies, cookies." The way the horse extends himself in response to that baby talk is a wonder and that is the way Raymond won the race in the last quarter.

### Kate Phallamont Unplaced.

F. H. Colby started Kate Phallamont in the 2:17 class at Detroit yesterday but was outside the money, although Kate got fifth place in the summary. The best time was 2:12. At Freeport yesterday Baron Rogers defeated the 2:17 class trotters, going in 2:13, the same time he made when he won the 2:15 class purse here. Winnie H., King Hilday and Delmar were his competitors. Spinetta started in the 2:15 pacing, class and got third money. Westley R., a horse that only cost \$40, won the race, his best time being 2:11.

Queen McGregor won the free for all pacing purse at Joliet yesterday, defeating Tom Ogden, Wheeler F., Way Mark, New Era, Rooster and other horses that have raced here. The best time was 2:12.

### WHEN CHARLES I. WAS BEHEADED

only one man in the vast crowd present knew why the blood spurted from the monarch's severed arteries—namely, Dr. Harvey, the Court Physician who discovered the circulation of the blood.

For asserting this fact he was reviled and persecuted, and came near to losing his own head. But the world has grown more intelligent and broad-minded since then, and when the Shakers of Mt. Lebanon, (N. Y.) announced their discovery of an absolute remedy for indigestion and dyspepsia it was welcomed both by the people and the physicians.

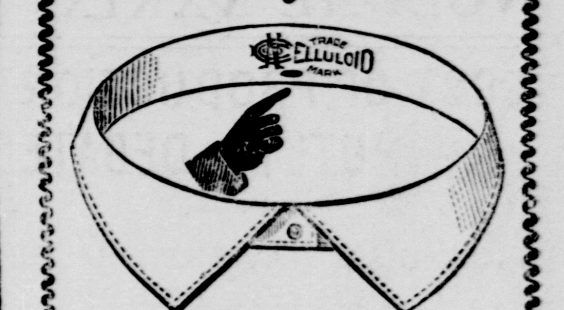

For ages dyspepsia has been the bete noire, the black beast, the bug-bear of the medical profession.

We know it to be the real cause of nine-tenths of our ailments, yet have never been able to master it. Its symptoms are numerous and perplexing—many of them falsely considered (and wrongly treated) as distinct diseases. Among them are: distress after eating; sickness and nausea; pains in the head, chest, sides and back; bad taste in the mouth and offensive gas rising to the throat; costiveness and irregularity of the bowels; variable appetite; heartburn and palpitation; sick headache; ringing in the ears; nervousness and loss of sleep; weakness and mental depression, etc.

The Shaker Digestive Cordial relieves and cures this condition as nothing else ever did. It is prepared with rare mountain herbs, cultivated by the Shakers. For many years this people have studied the disease, and humbly and faithfully sought the remedy. Having found and tested it they confidentially offered it to a world-full of sufferers. None who try it will be disappointed. It relieves immediately.

That you may learn whether it is adapted to your case the Shakers have placed trial bottles on the market at ten cents—for sale by nearly all druggists.

## Nancy Hanks, the Turf Queen.

Nancy Hanks, queen of the trotting turf, is now 8 years old. She was bred near Lexington, Ky., by a farmer named

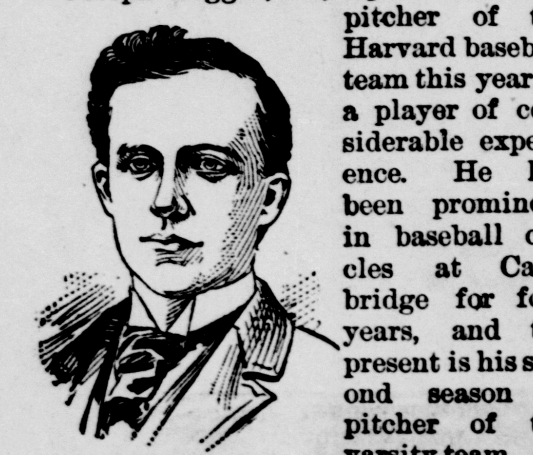

NANCY HANKS.

H. Boswell and was by Happy Medium—Nancy Lee. She first broke the world's record in 1892, trotting in 2:07 1/4 and dethroning Sunol, 2:08 1/4. She has since reduced her record to 2:04 and will probably endeavor to get even nearer to the two minute mark this year. She is owned by J. Malcolm Forbes of Boston.

## Captain Wiggin of the Harvard Nine.

Joseph Wiggin, Jr., captain and crack pitcher of the Harvard baseball team this year, is a player of considerable experience. He has been prominent in baseball circles at Cambridge for four years, and the present is his second season as pitcher of the varsity team. He is 23 years of age, and this is his first year at the law school. An injury to his hand last year has seriously handicapped him as a pitcher.

JOSEPH WIGGIN, JR.

"Does her love her icky darling?" he queried.  
"Es."  
"Does her love her icky darling lots?"  
"Es."  
"Will her love her icky darling always?"

A man with gray hair, who bore a striking resemblance to the young woman whose head rested on the shoulder of the youth attired in an ice-cream suit, strode into the apartment and called time.

"I would suggest," he said, with an effort to be calm, "that this civil-service examination be adjourned until to-morrow evening."

Then the effort to be calm became too much for him, and he burst into a harsh, mirthless laugh.—Detroit Tribune.

## For Future Use.

A readiness to apologize for an offense is not worth much unless it is accompanied by a disposition not to repeat the injury.

Johnny and Jenny were quarreling, and Jenny began to cry.

"Oh, well," said Johnny, "don't cry—I'll take back all the mean things I've said."

"Yes, you'll take 'em back," sobbed the girl, "so you can have 'em just ready to use over again!"

## CARNOT MEMORIAL CHAMBER.

Widow of France's Martyred President Now Has It Completed.

Mme. Carnot has now completed the memorial chamber dedicated to her martyred husband, and means that it shall be used as a private chapel. The room contains some praying chairs, President Carnot's desk and inkstand, and the souvenirs to which he was attached. On the walls hang the ribbons that tied the wreaths that appeared at his funeral, with the inscriptions turned to view, and the different silver wreaths sent from Russia are placed on easels. Albums filled with the letters of condolence and telegrams received from all the great ones on earth, and photographs of every description relating to the visit to Lyons and to the funeral are disposed in cases especially made for them. At Mme. Carnot's death these family treasures become her son's, but after that they will be given to the state, if then the state is republican and cares to remember the tragic assassination of its president well enough to receive their charge. The age changes so rapidly that one can not predict, even in a matter closely allied to the nation's welfare.

## HE GOT THE SUGAR.

How a Monkey Reasoned Out a Very Knotty Problem.

The following anecdote of a tame monkey, to which was given a corked bottle with a lump of sugar inside, indicates that the animal, though unable to invent, could imitate. A phrenologist would say that the monkey had "perception" but not "casualty." How to get at the sugar was a problem that bade fair to drive him crazy. Sometimes, in an impulse of disgust, he would throw the bottle out of his reach, and then be distracted until it was given back to him. At other times he would sit with a countenance of intense dejection, contemplating the bottled sugar, and then, as if pulling himself together for another effort at solution, would sternly take up the problem afresh and gaze at the bottle. He would tilt it one way and try to drink the sugar out of the neck, and then suddenly reversing it, try to catch it as it fell out at the bottom. Under the impression that he could capture the sugar by surprise, he kept rasping his teeth against the glass in futile bites, and warming to the pursuit of the revolving lump, used to tie himself into regular knots round the bottle. Fits of the most ludicrous melancholy would alternate with spasms of delight as a new idea seemed to suggest itself followed by a fresh series of experiments. Nothing availed, however, until one day a light was shed upon the problem by a jar containing bananas falling from the table with a crash and the fruit rolling about in all directions. His monkeyship contemplated the catastrophe, and reasoned upon it. Lifting the bottle high in his paws, he brought it down upon the floor with a tremendous noise, smashing the glass to fragments, after which he calmly transferred the sugar to his mouth, and munched it with much satisfaction.

## EXTRACTING OF TANNIN.

It Has Lately Become a Practical and Profitable Industry.

The extraction of tannin from palmetto leaves has now become a practical industry, and it is claimed that leather tanned with this product can be more economically produced than that which is treated with oak or hemlock bark, while the residue forms a valuable paper stock, which is also utilized. In the process of extraction the leaves and stems are separated, the stems are crushed flat through rollers, while the leaves are finely shredded; this material is then placed in a large wooden tank and covered with water, the mass is brought to the boiling point but not allowed to boil violently—being kept near but below the boiling point for forty-eight hours, the liquid being then ready for the tannery. After the tannin has been extracted, the palmetto is steamed in a chemical solution, which removes the silicate contained in the palmetto and changes the glossy shield to a gummy mass, which can be removed without injury to the fibre; but in making imitation horsehair this gummy mass is allowed to dry, as it adds to the elasticity of the fibre. There are several combinations in which the production of tanning and fibre is said to be practicable and advantageous, so that tanneries situated in the vicinity of paper mills can grind the palmetto in the same manner as bark, and the residue, after bleaching, is in proper shape for the paper mill.

WELSH AND AMERICAN TIN.

The Welsh tin plate industry is confronted with the most trying crisis in its history. Welsh manufacturers underrated the ability of Americans to make tin plate and they are now being pinched. Wages have been reduced in the Welsh works from 10 to 25 per cent. a state of things against which the present strike is a protest. Unless, however, some new stimulus is applied to the Welsh industry, it is not likely to again acquire the importance which it has hitherto held. It has been proved that America can make her own tinplate, and it is not impossible that the Welsh manufacturer will find her a competitor in foreign markets at some future time. And it is well to bear in mind that we owe the development of the tin plate industry in this country wholly to the protective duty of 2 2-10 cents per pound levied by the McKinley bill. This was just twice the rate of duty previously imposed. Previously to that, when the duty was 1 1-5 cents a pound—the same rate as that which now prevails under the Wilson bill—not a pound of tinplate had ever been manufactured in this country. But the increased protection afforded by the McKinley bill enabled American enterprise for the first time to compete with the Welshmen.

During the two years in which it was assured of this protection a very large amount of capital was invested in American tinplate works. During the subsequent two years, in which they were operating under the democratic threat of a reduction of the tariff, no additional capital was put into such works, but the proprietors of the plants already in operation bent all their energies to save the money they had put into them. In consequence, as the general reduction of wages following the panic of 1893 and the very low price of steel plates, they have been enabled thus far to compete successfully with the Welshmen, even after the duty was cut in two by the Wilson-Gorman bill. This cut in the duty forces them to compete with the cheaper labor on the other side of the water on terms so close that, while they are enabled, under existing conditions, to keep on manufacturing tin plate and to do so probably at a profit, the profit is so small as to afford no temptation for further investment of capital in new enterprises of the sort. If the McKinley duty on tinplate has been in undisturbed operation for five years more, the tinplate industry in this country would have reached such dimensions as to have crowded the foreign article out of the market.

THE DEMAND FOR CARS.

Railway officials are figuring on the problem of moving the crop. That the problem has its difficulties is easily demonstrated. A wheat crop of only 115,000,000 bushels in Minnesota and the Dakotas alone would fill, if it were loaded at one time, over 200,000 freight cars, which would form about 7,000 trains of thirty cars each. Yet wheat constitutes only one-half of the total crop in value and much less than half in bulk. Fortunately the wheat crop does not have to go to market at once, although it has to be moved rapidly, as the country elevator capacity of the three states is only about 22,000,000 bushels and the country elevator must be kept open to the farmers. The railroads of the Northwest are building and repairing all the cars possible, with the expectation of having 50,000 cars ready for service and some of the officials regret that this total cannot be increased by 10,000 cars. If, however, the estimated deficiency in rolling stock is small the railroads can be relied upon to meet the phases of pressure that arise with the certainty that there will be no such catastrophe as a "car famine."

When temperance bar rooms get their non-alcoholic drinks well introduced, somebody will come along with a movement to protect the stom-

ach from sweets, acids and gas. There is no rest for reform, and when we get our morals in good shape we shall begin to look after our digestion.

THE LABORERS AND THE HARVEST

There is some reason to distrust the accuracy of the report sent from Aberdeen and other places in South Dakota that that state is overrun with laboring men looking for work in the harvest fields which they cannot find, and that the farmers already have all the help they want. Information from reliable quarters is that surplus men who can't find employment are either tramps or men who expect higher wages than the farmers are disposed to give.

Undoubtedly, too, so far as South Dakota is concerned, there is much less demand for labor for the harvest fields, because the crops in that state have turned out much below general expectations. The wheat crop, however, will probably yield 12 to 13 bushels per acre, and will need a great many men to help the farmers take care of it. And taking the northern Minnesota and North Dakota crops, which will mature later, it is estimated that not less than 10,000 men will be needed for harvest work.

The Milwaukee Journal keeps busy appointing lawyers from all parts of the state to the supreme bench. There is but one vacancy and we fear the Journal will be disappointed when the choice is made, just as it has been disappointed once or twice before.

A combination of "beer and bible" was decisive in English election. If American elections a ratio of 16 to 1 in favor of beer may be taken for granted.

In a few months the mortgages of the Northwest ought to be largely supplanted by bank accounts.

BURNED AT THE STAKE.

That Seems to Have Been the Fate of Tom Johnson, Negro Murderer. New Orleans, La., July 26.—Nothing definite can be learned as to what the mob really did with Tom Johnson, the negro, at Hattiesburg, Miss. When the men who composed the mob returned to Hattiesburg, they spread the report that Johnson had escaped from the two men who were holding him, broke through the crowd and ran into the swamp. From other stories told of the affair, Johnson was burned at the stake. Tom Johnson is the negro who murdered Mrs. Hartfield and her daughter at Hattiesburg. A crowd of citizens went to the jail and demanded the prisoner, and on being refused by the sheriff demolished the wall and broke open seven locks to reach the negro's cell. He was carried out to the scene of his crime, fourteen miles from Hattiesburg, for identification.

SWISS WATCHES.

How Boys Are Instructed in the Methods of Manufacturing Timepieces.

The famous Swiss watch schools are said to be the most exacting institutions in the world. Their methods, which are doubtless the secret of their success, will be found very curious and interesting. In one of the most celebrated of these institutions in Geneva, for example, a boy must first of all be at least fourteen years of age to enter. After being admitted, the student is first introduced to a wood-turning lathe and put to work at turning handles. This exercise lasts for several weeks, according to the beginner's aptitude. This is followed by exercise in filing and shaping screwdrivers and small tools. In this way he learns to make for himself a fairly complete set of tools. He next undertakes to make a larger wooden pattern of a watch frame, perhaps a foot in diameter, and after learning how this frame is to be shaped, he is given a ready cut one of brass of the ordinary size, in which he is taught to drill holes for the wheels and screws. Throughout this instruction the master stands over the pupil directing him with the greatest care. The pupil is next taught to finish the frame, so that it will be ready to receive the wheels. He is then instructed to make fine tools and to become expert in handling them. This completes the instruction in the first room, and the young watchmaker next passes to the department where he is taught to fit the stemwinding parts and to do fine cutting and filing by hand. Later on he learns to make the more complex watches, which will strike the hour, minute, etc., and the other delicate mechanisms for which the Swiss are famous.

DIDN'T HURT ENOUGH.

Tommy Disgusted Because the Dentist Used a Tack Lifter.

A Presbyterian minister in one of the suburbs of Cincinnati has a bright and mischievous young son, says the Cincinnati Tribune. The lad had suffered from the toothache and all the household remedies had been tried in vain. As a last resort his father resolved to take him to the dentist on the following day and have the tooth removed. The boy, on being informed of this, offered a few objections, but, finding that they were overruled, he decided to make the best of it. With the ingenuity of a Tom Sawyer he made himself a hero among his companions. Great were the tales he told of them of the strength that would be necessary to remove that small "baby tooth." How the dentist would be compelled to "use both his hands" and probably call in his assistant. The eventful hour at last arrived and the boy seated himself in the chair and took a firm grip on each arm. The dentist looked at the mouth, smiled, and, taking up a small steel instrument, literally pried the little tooth out. Our young hero looked at the tooth, at the dentist, at his

laughing father and then "got mad." Anger, disappointment and disgust were plainly depicted on his countenance. Not a question would he answer. He quietly walked over to the other side of the room and put on his hat and overcoat. His perplexed father followed him and put the fatal question: "My son, did it hurt you?" That was too much for the little fellow, and with two big, angry tears rolling down his cheeks he replied: "Hurt! hurt! Why, he didn't pull my tooth out. He just took it out with a tack lifter."

Ratio of Sickness.

The ratio of sickness rises and falls regularly with death rate in all countries, as shown by Dr. Farr and Mr. Edmunds at the London congress of 1860, when the following rule was established: Of 1,000 persons, aged 30, it is probable 10 will die in the year, in which case there will be 20 of that age sick throughout the year, and 10 invalids. Of 1,000 persons, aged 75, it is probable that 100 will die in the year, in which case the sick and invalids of that age will be 300 throughout the year. For every 100 deaths let there be hospital beds for 200 sick, and infirmaries for 100 invalids.

TEST THE NEW LAW  
AS TO WAGON TRADEDEPUTY TREASURY AGENT  
CUTTS BEGINS A CASE.

Charges W. F. Haumerson With Peddling Without a License—Man Who Holds The World's Record For Toil, Working Nine Days a Week—Police Stories.

The first legal proceedings under the new law to regulate the "transient merchants" were begun in the municipal court by Deputy Treasury Agent A. K. Cutts today. On behalf of the state he seeks to recover \$100 from W. F. Haumerson, a dealer in butter and eggs and cheese, for failing to pay the necessary license fee. Haumerson's place is on West Milwaukee street, near the Grand hotel. He makes his own butter but buys and sells cheese and eggs, conducting his business by means of a wagon in connection with his headquarters.

As the case is the first under the new order of things, the court's rulings will be of interest. Mr. Haumerson was represented by Attorney Edward M. Hyzer, while District Attorney Jackson appeared for the state. The reading of the complaint was waived, and a plea of not guilty entered, after which the case, by consent, was adjourned until August 1 at 9 o'clock.

A Tireless Toller in Jail.

The most industrious man in Rock county is in jail for sixty days. Hugh Miller is his name, and he says he works nine days a week. Miller was brought into the municipal court at 5 o'clock yesterday afternoon and confronted with the charge of being a common drunkard. He was still in bad shape, and Officer Cochrane, who made the arrest, had to assist him up the stairs. Once in court, Miller asserted himself and declared that if he was guilty, they must prove it. He would "plead not guilty and pettifog his own case." And he did.

"You say I am a common drunkard and a vagrant?" he inquired in cross examining the officer. "Didn't I work for you nine days in a week?"

"But there are only six days in the week," protested Cochrane. "How could you work nine?"

"Overtime," Hugh replied laconically.

"You haven't worked two weeks in six months," replied the officer, and Hugh had to admit it. The court found him guilty and sentenced him to sixty days.

Monterey Water Case Adjourned

Emile Schumaker, charged with illegally building a dam in the lower raceway to divert water from the cotton factory wheels to the wheels of the woolen mills, appeared in the municipal court this morning. The attorneys were not ready, and by consent, an adjournment was taken until August 2, at 10 o'clock, in the forenoon. It is said the case will prove interesting, as the water, at this stage of the game—or rather of the river—is very valuable and power owners are jealously watching every drop. This suit, it is said, is only the forerunner of a legal fight that may occupy the court for some time to come.

W. H. Lacey, who was arrested for an alleged embezzlement on the complaint of his former employer at Reed City, Michigan, raised the money to pay up his shortage and was discharged.

HORSE FRIGHTENED BY CARS.

A. F. Ross and Mother in a Runaway On Washington Street Last Evening.

As A. F. Ross and his mother were on their way home last evening, their horse became frightened at the street cars, near the corner of Washington street and Mineral Point avenue. It overturned the buggy, smashing it considerably, and ran down Washington street. Mr. and Mrs. Ross escaped uninjured.

IN RESPONSE TO THE FINAL CALL.

Funeral of Isabelle Myzr.

The funeral of little Isabelle Alice Hyzer was held from the residence of the bereaved parents, Mr. and Mrs. W. Hyzer, 28 Milwaukee avenue, at 2 o'clock this afternoon. Rev. Dr. Sabin Haley, of the Court Street M. E. church, officiating. The services were largely attended, many friends of the stricken parents testifying to their sympathy by their presence. The interment was made at Oak Hill.

The Famous Northern Dairy Butte.

Yesterday we received 350 pounds and today 350 pounds more by Saturday night it will probably all be gone. It's a great seller the quality is what does it. Call up No. 182, if you haven't time to walk to our store. Nolan Bros.

## CYCLER OUT ON A 700 MILE TRIP

## E. Roper Spends Twelve Days In Touring Wisconsin and Northern Illinois.

E. Roper rode into Janesville yesterday afternoon and stopped just long enough to catch his breath. He left the World's Fair city on the 15th on a twelve days trip and should reach home tonight. From Chicago he went to Aurora, straight north from there to Fond du lac and Green Bay, then to Baraboo and down to Madison and Janesville. He left here after a short rest, for Rockford, where he spent the night. He expected to leave early, reaching home today. When he reached Janesville his trip had included 600 miles with another one hundred between this city and his home.

O. A. Robinson, of Benton Harbor, Mich., arrived in the city from Madison this morning on his wheel. He has been out two months and has covered over two thousand miles. He left this noon for Lake Geneva, being on his way home.

The bicycle races for tonight are postponed on account of threatening weather.

## MORNING SPINS TO MILTON

## Early Rides Are All The Go With Bower City Cyclers.

Early morning spins to Milton and Milton Junction are becoming very popular. Between four and six o'clock nature is in her most charming mood and the pure, cool air is a wonderful tonic. The distance for the round trip is just seventeen miles including the mile from Milton to the Junction and this is made in all sorts of time by all sorts of riders some taking four hours for the trip, while the fast ones claim to make it in one hour and fifteen minutes. Each new rider has some story to tell of lowering the time.

## ASKS FOR AN INJURED BOY.

McDonald's Friends in New York Write to Janesville For Details.

Herman Clancey of New York, telegraphed to Herman Buchholz today, for particulars about the injury of Frank McDonald, at Milton Junction, Sunday.

Word was sent to McDonald's father Sunday, and Clancey, who is an acquaintance of Mr. Buchholz, is supposed to be inquiring in his behalf. The family do not seem to take much interest.

## PARK STREET SURVEY DOUBTED

Dr. William Horne Points Out a Discrepancy of Seven Feet.

Three feet underground an old grade stake was found on Park street today. "I suppose it marks the same corner as the surface stake here in my fence corner," said D. William Horne. "There is a difference of seven feet between the two stakes, and it would look as if I had seven feet of ground coming to me."

Dr. Horne will consult the city engineer.

## EXCURSIONISTS FOR THE DELLS

Over Loaded Cars Arrive Here From Mineral Point.

When the excursion from Mineral Point to the Dells pulled into the Janesville yards this morning the train was so crowded that three extra cars had to be added. There were five cars on the train, besides a baggage car and Agent Samuels sized up the load at 450. The Monroe band furnished music.

## NELSONS ADVISED TO BUILD.

They Will Break Ground On South Main Street At Once.

Nelson Bros. have been advised by attorneys to go ahead with their building on South Main street.

"We will begin work at once," said John Nelson this afternoon.

The building planned will be one story high and will be sheathed so as to be fire proof.

An Indefinite Phrase.

"I am in receipt of a princely income," said the suitor for Miss Coolcash's hand.

"Better state figures, young man," replied Mr. Coolcash; "the last prince who proposed for Miranda had to borrow his steamship fare home when she refused him."—Life.

His Excuse.

Jack's Wife—Jack, why don't you write a book or paint a picture or do something clever?

Jack—Because I selected a millionaire for a father, and I think that was clever enough to last a lifetime.—The Waterbury.

Explained.

Wife—What do you mean by coming home in this condition? You promised that you would only drink two fingers of rye this whole day.

Hubby—Right you (hie) are! I drank it out of a (hie) baking-pan.—N. Y. World.

All the Items.

TWO BOY BURGLARS  
ADMIT THEIR CRIME

## STORE WAS ROBBED OF CONSIDERABLE MERCHANDISE

Harvey Hendee and John Sharp, Two Beloit Fifteen Year Olds Charged With a Very Serious Offense—Hendee Under Bonds on Another Charge—Blackmore at Waupun.

Harry Hendee and John Sharp of Beloit, both under 16 years old, are in trouble, and while Sharp will probably be sent to Waukesha, Hendee will probably be brought to Janesville tonight and lodged in jail. The two young men were arrested by Marshal George Appleby, of the Line City, for the alleged burglary of H. B. Chambers' cigar store, which was broken into a week ago and a quantity of tobacco, some cigars and pipes, beside some money were taken. Marshal Appleby got a clue and decided that he had all the information needed and went to an island where the boys were camping and at once told them that he came up for "those cigars." He said that Mr. Chambers could not afford to lose them, and as they had had enough fun they had better return what was left. The boy stammered a little, but finally said he would go and get the plunder. Anxious to Plead Guilty.

The lads will both plead guilty, it is said, and take their sentence to avoid being charged with burglary, in which case they would be sent to the penitentiary. Sharp will probably be sent to Waukesha at once but Hendee is now under bond in another case in which a young lady figures on the program and her case may be varied to suit the circumstances.

Sheriff Appleby went to Waupun this noon with William Blakemore the youthful pickpocket who was sentenced yesterday.

That means, holders of tickets must leave Colorado on or before that date.

## Why Does a Fellow Get Yellow?

You needn't mull an answer to this simple soundrum. We know that you know that a fellow—we use the term in no offensive sense—is yellow because he is bilious. In other words, his liver has got out of order, his bowels have become constipated. His skin and eyeballs assume a most unwarrantable yellow tinge, his tongue puts on a coat of fur, even in the summer time; beneath his right shoulder blade and ribs twinges remind him that a very restless trip is in their immediate vicinity. Now, if this hapless individual will simply procure and use at once Hostetter's Stomach Bitters he'll be all right shortly. Constipation, biliousness, malaria, indigestion, rheumatism, neuralgia and disorder of the kidneys and bladder all yield to this peerless family remedy and preventive. Use it promptly, with persistence and regularity. A wineglassful thrice daily.

## If the Baby is Cutting Teeth,

Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind, colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

## Not Needed.

"Feller-citizens—I tells ye the English was treated jest right," cried the orator. "They ain't got any business on these here shores, then, now, ner never. We ain't got no use for their manners; we ain't even got no use for their customs; we ain't even got no use for their language, when ye comes to think on it."

"You are right," said a man in the crowd. "You get along without it in great shape."—Harper's Bazar.

## A Model Husband.

Friend Perrichon, accompanied by his wife, took a trip to the outskirts of Paris. Very tired and hungry they entered an eating-house. The proprietor declared that he had nothing but a chop to offer them.

"Only one!" exclaimed Perrichon; "then what is my wife to have?"—La Gaulois.

## Demand and Supply.

Stout Beggar—Gimme a quarter, will yer?

Old Gentleman (nervously) — This sounds more like—er—a demand than—er—a request.

Stout Beggar—Is dat so? Well, all you've got ter do is ter see dat de supply is equal ter de demand. See?—Brooklyn Life.

## An Inadvertence.

Nelson—Well, I'm the luckiest chap in the world.

Stanley—How so?

Nelson—It appears that Madge broke with me about the same time she did with Jack Boodles, and now she's sent me back his presents instead of my own.—Philadelphia Call.

## SLEEVES AND SKIRTS.

**Checks and Plaids Are a Feature of Present Fashion.**

Sleeves are very large and of the universal leg of mutton shape, though many evening toilets, without being strictly full dress, have elbow sleeves of one huge puff. Full shirt sleeves gathered to a stiff or turnover cuff are seen on some cotton shirt waists and gingham gowns, but the close fit below the elbow prevails. The

CREPON COSTUME.

crush or stock collar is seen with every kind of a dress made of satin, silk, velvet, ribbon, lace or embroidery. The large eyelet or trout-trout embroidery is used for a collar, with ribbon run through on cotton dresses. Flat yokes and epaulet ruffles of lace are worn; also full Fedoras fronts of lace or embroidery, and wherever the pattern will admit of it ribbon is run through the holes. Lace insertion is used in lengthwise stripes over and between the box plaits on waists, and jet bands in black, or colored spangles, or beads and spangled satin ribbons are used in the same manner.

Checks and plaids are a feature of fashion. Checks are much employed for skirts, the bodice being quite different. The materials most favored for tailor made gowns are serge, cheviot, cloth and pique.

Well cut skirts that are yet too narrow to suit the prevailing mode may be widened by the introduction of quills of embroidery or lace at the seams. These quills should be wide at the foot, diminishing to nothing at the waist. The bodice may be trimmed with points to match.

The piping of skirt seams is much in vogue at the present moment. It is stiff and inartistic, but has the effect of giving height to the figure.

The illustration shows a charming dress toilet of straw and sky blue striped crepon. The ample skirt is plain, forming godets all the way around. The bodice, which has a fitted back and a draped front, is of blue silk, with a square yoke of crepon, which is extended to form epaulets. The draped front has applications of white guipure and is adorned with two choux of straw satin. The draped collar is also of straw satin with choux. The exceedingly bouffant sleeves of crepon stop at the elbow. With this gown is worn a hat of black straw trimmed with black plumes and yellow roses. JUDIC CHOLLET.

## SUMMER WEAR.

**New Styles In Bodices—Collars and Laces. A Pretty Costume.**

The fashion of having the bodice different in every respect from the skirt is beginning to pall a little on some tastes, and several new models of costumes show the bodice of the same general color as the skirt, although differing in material and decoration.

Large collars, mainly white, in silk and lace are a feature of the season. They are seen in white batiste, also trimmed with yellow valenciennes lace, and this combination is very effective.

The usual width of muslin is a yard, and for unlined summer gowns five widths are employed for the skirt, one in front,

YOUNG GIRL'S COSTUME.

one on each side and two at the back. All the breadths are narrow at the top, as a rule, but for very stout persons or those not well rounded it is better to have the two back breadths straight. The material is so thin that the full width may be gathered into a narrow compass, and the effect is more satisfactory.

In shirring unlined bodices to form a yoke the lines of shirring should always be strengthened by a line of machine stitching, as otherwise the muslin will shift on the gathering thread and the gathering thread itself may break if not re-enforced. The shirring should be made fine and even before the stitching is done.

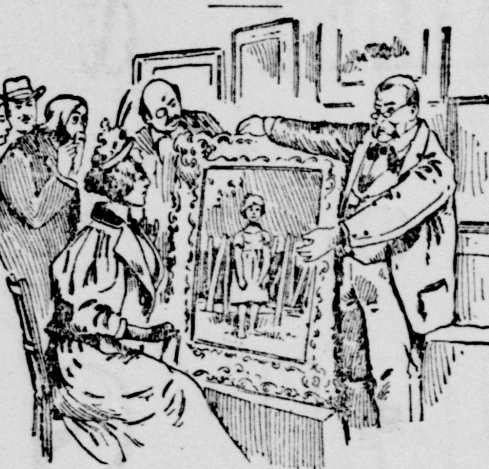

In many of the pale tinted muslins of this season a tiny touch of black is introduced, either as a line, dot or minute figure, and this slight emphasis gives an additional charm to the delicate coloring. Narrow, old fashioned looking black lace has reappeared as a trimming for thin silks and batistes, although it is not quite satisfactory for the latter, as it will not bear washing. There are extremely pretty red lawns, both plain and striped with black or white.

A pretty costume is illustrated that is intended for a very young lady. The plain godet skirt is of old rose crepon. The blouse bodice is of old rose crepon plisse and is ornamented with lengthwise bands of black satin. A butterfly of guipure rests on the chest. The draped collar and belt are of black satin. The balloon sleeves, which terminate at the elbow, are of old rose crepon and are adorned with black satin choux. A toque is worn made of small old rose flowers and decorated in front with black satin loops and ends. JUDIC CHOLLET.

## WOMAN'S SUFFERING.

RELIEVED BY MAIL. HOW IT IS DONE.

How a Woman Works for Her Sex.

(SPECIAL TO OUR LADY READERS.)

Seated at her desk in the bureau of correspondence, this wonderful woman opens her letters from all parts of the world. A few extracts from their contents tell the story.

FROM IOWA.

"I am in a very bad condition. My courses have stopped from catching cold, and the pain is fearful. I am all bloated up; and the pain in lower part of my body is terrible. My back and head ache all the time. What shall I do for it?" Miss J. Moines.

FROM NEW JERSEY.

Mrs. Lizzie DeCline, 224 Grand Street, Jersey City, relates her miseries resulting from womb trouble, from which she was relieved and cured by the timely use of Lydia E. Pinkham's Vegetable Compound. She ends her letter by saying, "I owe all to you."

FROM OHIO.

Mrs. Newton Cobb, of Manchester, O., writes: "I used eight bottles of your Vegetable Compound, and I am happy to say it has cured me of painful menstruation and backache. My suffering every month was dreadful. The doctors gave me morphine to ease the pain; nothing to cure me. Oh, I want to tell every one what cured me! I wish every suffering woman would write and get your advice."

FROM ILLINOIS.

Miss Jennie, Chicago, states that she is twenty-two years of age; occupation, saleswoman in large dry goods store. Constant standing has brought on womb trouble, the symptoms of which she describes fully. She has cured me of my trouble. I have suffered terribly from painful menstruation and kidney trouble. At times my head was so dizzy I could hardly see. A friend recommended your Vegetable Compound. I am a different girl now; no more aches and pains. Oh, thank you, thank you!"

FROM PENNSYLVANIA.

Miss Mary Smylie, who resides at 2978 E. Susquehanna Avenue, Kensington, Phila., writes: "I am a working-girl, and must stand eleven hours every day. I have suffered terribly from painful menstruation and kidney trouble. At times my head was so dizzy I could hardly see. A friend recommended your Vegetable Compound. I am a different girl now; no more aches and pains. Oh, thank you, thank you!"

FROM NEW YORK.

The above extracts from many hundreds letters received daily by Mrs. Pinkham, at Lynn, Mass., go to show how easily ailing women can obtain advice and relief. Write to Mrs. Pinkham.

Lydia E. Pinkham's Vegetable Compound, the most successful female medicine known to the world, can be obtained of any druggist in the land.
